What is this product?

Type

The Sub-fund is part of BA³ STRATEGIC INVESTMENT SICAV fund. The Fund is an open-ended investment company with variable capital, incorporated in the Grand Duchy of Luxembourg. This Fund is authorised and supervised by the CSSF. The Depositary is Banco Inversis S.A.

Term

The investment horizon is medium term and should be at least 3 years.

Objectives

The Sub-Fund is a mixed actively managed fund of funds without a reference to a benchmark. The objective of the Sub-Fund is, in particular, to gain regular income by mainly investing through UCITS including ETFs with focus on environmental, social and governance (ESG) factors. The fund will not invest in certain sectors such as the arms industry or the genetic engineering of crops as well as in companies which violate labour and human rights, etc.

The Sub-Fund aims to achieve a financial return, while at the same time the Sub-Fund is promoting ESG (i.e. Environmental, Social and corporate Governance) criteria and integrating sustainability risks in the investment process.

SFDR Classification: Article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector. The financial product promotes environmental or social characteristics but does not have as its objective a sustainable investment.

To achieve this, the Sub-Fund will follow a balanced allocation strategy in UCITS within the Raiffeisen Capital Management range of collective investment schemes and in exchange traded funds ("ETFs").

The investment in UCITS may range up to 100% of the net assets of the Sub-Fund, but the maximum weight allowed for each UCITS is 20% of the Sub-Fund's net assets. All eligible UCITS will be classified as either Article 8 or Article 9 (within the meaning of SFDR, Regulation (EU) 2019/2088, of 27 November 2019 on Sustainability-related disclosures in the financial sector).

Intended retail investor

Reserved for retail and institutional investors. This Sub-Fund is addressed to investors seeking income with a conservative multi-asset allocation. Minimum Subscription: 100.000 EUR.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Other risks: Credit risk, Liquidity risk, Counterparty risk, Operational risk, Derivatives risk, Currency risk, Event Risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What happens if Adepa Asset Management S.A. is unable to pay out?

The investments of the fund are held separately from the assets of Adepa Asset Management S.A. as fund management company and from the corresponding custodian bank. Thus, you will not lose your investment in the event of a possible insolvency of Adepa Asset Management S.A.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10,000 EUR

Costs over Time	If you exit after 1 year	If you exit after 3 years
Total costs	165 EUR	431 EUR
Annual cost impact (*)	1.7 %	1.4 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.8 % before costs and 3.5 % after costs.

Composition of Costs

The table below shows the impact if you exit after 1 year.
